From the
INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

PCT

To:

DÜNNWALD, Dieter
Clariant International Ltd
Rothausstrasse 61
CH-4132 Muttenz 1
SUISSE

RECEIVED

10. Feb. 2006

NOTIFICATION OF TRANSMITTAL OF
THE INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY

(PCT Rule 71.1)

Date of mailing
(day/month/year)

08.02.2006

Applicant's or agent's file reference
2004CH003

IMPORTANT NOTIFICATION

International application No.
PCT/B2005/000569

International filing date (day/month/year)
02.03.2005

Priority date (day/month/year)
17.03.2004

Applicant
CLARIANT INTERNATIONAL LTD et al.

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/B/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed inventions is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITYInternational application No.
PCT/B2005/000569

Box No. I Basis of the report

1. With regard to the **language**, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.
- ☐ This report is based on translations from the original language into the following language , which is the language of a translation furnished for the purposes of:
- ☐ international search (under Rules 12.3 and 23.1(b))
 - ☐ publication of the international application (under Rule 12.4)
 - ☐ international preliminary examination (under Rules 55.2 and/or 55.3)
2. With regard to the **elements*** of the international application, this report is based on *(replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report)*:

Description, Pages

1-13 as originally filed

Claims, Numbers

1-9 as originally filed

- ☐ a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing
3. ☐ The amendments have resulted in the cancellation of:
- ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):
4. ☐ This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
- ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):

* If item 4 applies, some or all of these sheets may be marked "superseded."

**INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY**

International application No.
PCT/IB2005/000569

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes: Claims	2-4,6-9
	No: Claims	1,5
Inventive step (IS)	Yes: Claims	6,9
	No: Claims	2-4,7,8
Industrial applicability (IA)	Yes: Claims	1-9
	No: Claims	

2. Citations and explanations (Rule 70.7):

see separate sheet

**INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY
(SEPARATE SHEET)**

International application No.

PCT/IB2005/000569

Re Item V

**Reasoned statement with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement**

1. Reference is made to the following documents:

D1: DATABASE CHEMABS [Online] CHEMICAL ABSTRACTS SERVICE,
COLUMBUS, OHIO, US; 1994, WACHI, TOSHIO ET AL: "Preparation of
phosphate triesters" XP002289140 retrieved from STN Database accession no.
1994:54693

D2: CRIES RESEARCH , 25(1), 51-7 CODEN: CAREBK; ISSN: 0008-6568, 1991,
XP009034124

D3: WO 02/08164 A (BASF AG ; MAAS HEIKO (DE); TROPSCH JUERGEN (DE))
31 January 2002 (2002-01-31)

D4: WO 03/091192 A (BASF AG ; RULAND ALFRED (DE); BOEHN ROLAND (DE);
HACKMANN CLAUS (DE);) 6 November 2003 (2003-11-06)

D5: DE 203 03 420 U1 (SASOL GERMANY GMBH) 30 October 2003 (2003-10-30)

2. D1, see RN 151834-99-0, Field "CN" und fig., already discloses a compound
according to formula I, in which the variables have the following meanings:

$m = 3$

$n = 2 \text{ oder } 3$

$x = 5$

$s = 1$

$r = 3$

$r + s = 4$

Claim 1, therefore, lacks novelty over D1.

D2 , page 52, left hand column "Alkyl Phosphates" describes the phosphoric acid

monoester of tetraethylenglykol-mono-(2-ethylhexyl)etherr und das disodiumsalt (E) thereof and at page 53 tables 1 and 2 tooth protection agents against streptokokkus consisting of (E) and distilled water or (E), dist. water and non-ionic surfaceactive agent.

The free acid of (E) meets the variables of claim 1:

$$m = 1$$

$$n = 2$$

$$x = 4$$

$$s = 1$$

$$r = 3$$

$$r + s = 4$$

Hence, claims 1 und 5 lack novelty over D2.

D3-D5 are no anticipations. D3 discloses alcohol residues which are different from formula II; D4 is concerned with guerbet oligoalkoxylate but does not disclose phosphate esters thereof. D5 only discloses a broader generic definition of phosphateesters of guerbet oligoalkoxilates. In contrast thereto the novel compounds of formula I according to claim 1 are novel as being a selection.

3. Compounds known from D1 and D2 can be prepared and used in analogy to known processes from (see the search report for the specific disclosures). Hence, claims 3,4,8 are obvious over the combination D1/D3 or D2/D3. Furthermore, preparation and use of still new compounds is obvious over the combination of D5 (page 11, lines 20-26) or D4 (example 1) with D3 (example 7, claims 12 and 19). Hence, in addition to the novelty objection claims 1-5, 7 and 8 also obvious.
